

Mireth Technology's ShredIt X

Anyone who has this program installed can have a ShredIt garbage can that acts like a real high-security shredder for computer eDocuments. It features secure dragging & dropping straight into oblivion. ShredIt is X

the file shredder / hard drive cleaner that offers all the features you need to clean a hard drive, wipe a file and more - as well as the ease of use and safety features you really want from data file shredder software.

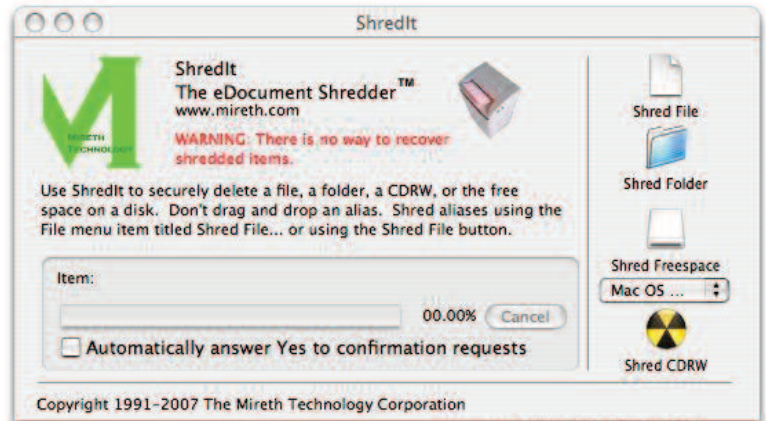

Users who need to dispose of confidential data on an ongoing basis appreciate how easy ShredIt is to use. If you receive any document on your computer that is for your eyes only and should be destroyed after reading, just drag the file on to the ShredIt icon and ShredIt File Shredder will wipe the file data so it can't be recovered.

Users who want to erase the contents of a hard drive before disposing of a computer can be confident that using ShredIt will accomplish the job. With ShredIt X you can be confident that you will never accidentally delete or erase anything.

One lucky MaUsE Member will win a set of Mireth security programs which have been donated to the MaUsE Club to be used as a raffle prize at our October 22nd 2008 MaUsE Meeting. We have a product CD from Mireth with several registered copies of both of the programs that appear in this month's DoubleClick. Make sure you bring your MaUsE Membership card and get a raffle ticket from Chris at the October MaUsE Meeting.

Key Features:

- ShredIt X shreds everything. It will erase a file, a folder, disk free space, files you've already deleted, a hard drive, external hard drives, CD-RWs and even a floppy disk
- ShredIt X is easy to use Step-by-step instructions will have you up and running in less than 15 minutes. With the option to "drag and drop" or "select from menu", you can use ShredIt X the way you're most comfortable. With the progress bar, you'll know exactly what's happening.
- ShredIt X has built-in safety features Since there is no way to recover an item that is accidentally shredded, ShredIt X comes with built-in safety features, including:
 - The "Confirm before Shred" feature.
 - The "Safe Place" feature.
 - The "Don't Panic" free space erase / disk wiping feature.
- Comprehensive documentation.
- Step-by-step online tutorials.
- Optional Standards Compliance - Optional compliance with US Department of Defense, NSA and Gutmann electronic shredding standards.
- Overwrite Options - A configurable overwrite pattern and number of overwrites.
- ShredIt is cross-platform, making ShredIt an ideal choice for the multi-platform office. There's a ShredIt version for Mac OS X, Mac OS 9, Mac OS 8, Mac OS 7, Windows 95, Windows 98, Windows NT, Windows 2000, Windows ME & XP.

- Proven Track Record - ShredIt software has been successfully erasing data for over 10 years.

ShredIt X is available for immediate download from Mireth, starting at \$24.95 or on CD-ROM, starting at \$34.95. ShredIt X runs on Mac OS X. For more information about NetShred, or to download a free trial copy, visit: <http://www.mireth.com/text/products.html>.
